

Support Our Mission

We need you to join NPAQ so that you can enable us to continue having our views heard. To help us achieve our aims, we develop close relationships with government officers and politicians. On occasions we are able to facilitate the public's right to be heard on protection issues. With our large membership and support base we are in a position to influence conservation outcomes. That's why we need you. Although there are many activities available to all members, your membership fees also help us to continue to campaign for more National Parks and Protected Estate within Queensland. You are contributing to a worthy cause by simply joining the Association. If you do not wish to join, you can still contribute by making a donation which also helps us to continue our mission.
